## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed 2/13/04 has been entered. Claims 1,10,11,15,16 are amended; no new matter has been introduced. Claims 1-20 are under consideration.

### ***Drawings***

2. The drawings were received on 2/13/04. These drawings are accepted.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Randy Tung on 5/20.04.

The application has been amended as follows:

**In the specification:** p.16;lines 6,7: change "502" to "702" (one occurrence). Change "504" to "704" ( two occurrences).

**In the claims:** Cancel claims 16-20.

Claims 1-15 are under consideration.

### ***Claim Rejections***

4. Claims rejections presented in the previous office action are withdrawn.

### ***Allowable Subject Matter***

5. Claims 1-15 are allowed.

6. The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Amended independent claims 1,11 recite opaque isolated / random features with assist patterns and off-axis illumination (OAI).

As argued by Applicant Hasegawa's phase shifted mask with assist features is not suited to OAI and Yasuzato's semi-dense pattern is transparent or phase-shifted.

The teachings cannot be modified to produce the instant claims.

US Pat. 5422205 to Inoue teaches patterning isolated or random line-and-space patterns (and contact holes) using opaque patterns (clearfield mask) with assist features (see fig.10-12). However the dummy features are not sub-resolution and require subsequent elimination by a second exposure.

Claims 2-10,12,15 are allowable at least for their dependence from claims 1,11 respectively.

### ***Response to Arguments***

7. Applicant's arguments have been considered in the allowance.

### ***Conclusion***
